Alas Poor Darwin Arguments Against

Alas, Poor Darwin, edited by sociologist Hilary Rose and neuroscientist Steven P.R. Rose, collects essays from scientists and social critics united in their disdain for the extremes of such EP proponents as Richard Dawkins and Edward O. Wilson. Though many writers rely on arguments based on our seemingly innate revulsion for determinism, often enough they rise up out of their easy rhetoric to score more legitimate points.

genes are called upon to explain almost every aspect of our lives, from social inequalities to health, sexual preference and criminality. Based on Darwin's theory of evolution and natural selection, Evolutionary Psychology with its claim that 'it's all in our genes' has become the most popular scientific theory of the late 20th century.

The criticism includes: disputes about the testability of evolutionary hypotheses, alternatives to some of the cognitive assumptions (such as massive modularity) frequently employed in evolutionary psychology, alleged vagueness stemming from evolutionary assumptions (such as uncertainty about the environment of evolutionary adaptation), differing stress on the importance of non-genetic and non-adaptive explanations, and political and ethical issues.

Criticism of evolutionary psychology - Wikipedia

Alas Poor Darwin is frequently ad hominem. It attempts to link the EP perspective with eugenics, even Naziism. Its language is often contemptuous and dismissive. It grossly over-simplifies. From a psychological perspective, it reflects a projected fundamentalism.
