Digital rights are basically human rights in the internet era. The rights to online privacy and freedom of expression, for example, are really extensions of the equal and inalienable rights laid out in the United Nation's Universal Declaration of Human Rights. According to the UN, disconnecting people from the internet violates these rights and goes against international law.

## **What are your digital rights? | World Economic Forum**

Increased business usage of new Internet applications is likely to have a neutral or slightly positive impact on the total number of jobs—but a more striking effect on the composition of the labor market. The economy will need fewer workers for routine activities that can move online, while demand will increase for workers with digital skills.
