According to the Organization for Economic Cooperation and Development, the eurozone debt crisis was the world's greatest threat in 2011, and in 2012, things only got worse. 1 The crisis started in 2009 when the world first realized that Greece could default on its debt. In three years, it escalated into the potential for sovereign debt defaults from Portugal, Italy, Ireland, and Spain.

### **Eurozone Debt Crisis: Causes, Cures, and Consequences**

A-The European Union in international relations The development of a European capability for crisis management is the result of two movements: the extension of international competence of the European Communities since 1957 and the creation and development of the Common Foreign and Security Policy since 1992.

### **The European Union and Crisis Management**

The Greeks are in the midst of a financial crisis that has made Greece unable to repay money Athens borrowed. Their options are to default on the debt or to negotiate a settlement with their creditors. The International Monetary Fund (IMF) and European Union are managing these negotiations. Any settlement will have three parts.

### **Germany's Role in Europe and the European Debt Crisis**

Three determinants shape the role and influence of the EU as a global-regional actor in peace and security: Capacity (institutional, material, human and operational, and financial) to undertake missions; Willingness to devote resources to security and defence purposes, mainly driven by member states' priorities; and.
