This is an excellent analysis of European universalism, which serves as an ideological rationalization for pan-European racism, Orientalism, and imperial control. Wallerstein suggests as an alternative not cultural-nationalism or Occidentalism but rather a truly liberatory internationalist counter-movement that would bring about a world in which "all would give and all would receive" (p. 80).

Ever since the Enlightenment, Western intervention around the world has been justified by appeals to notions of civilization, development, and progress. The assumption has been that such ideas are universal, encrusted in natural law. But, as Immanuel Wallerstein argues in this short and elegant philippic, these concepts are, in fact, not global. Rather, their genesis is firmly rooted in European thought and their primary function has been to provide justification for powerful states to ...
