Financial Accounting: Information for Decisions - Kogan.com

The general term “accounting” refers to the communication of financial information for decision-making purposes. Accounting is then further subdivided into (a) financial accounting and (b) managerial accounting The communication of financial information within an organization so internal decisions can be made in an appropriate manner 2.. Financial accounting is the subject explored in this textbook.

1.1 Making Good Financial Decisions about an Organization ...

Read PDF Financial Accounting Information For Decisions 2nd Edition

Financial accounting (and its cousin, managerial accounting) helps organizations make business decisions about how to allocate scarce resources. Financial accounting information helps in making investment decisions as fundamental analysis depends heavily on a company's balance sheet, its statement of cash flows and its income statement.

THE IMPACT OF ACCOUNTING INFORMATION ON DECISION MAKING ...

In other words, external users need financial information about companies in order to support their financial decisions. The ultimate goal of financial accounting is to compile business transactions and other input documents like invoices and sales receipts in the form of general purpose financial statements that can be understood by external users.
