Formula One Race Cars On

A Formula One car is a single-seat, open cockpit, open-wheel racing car with substantial front and rear wings, and an engine positioned behind the driver, intended to be used in competition at Formula One racing events. The regulations governing the cars are unique to the championship and specify that cars must be constructed by the racing teams themselves, though the design and manufacture can be outsourced.

The heart of a Formula One car is the chassis -- the part of the automobile onto which everything is bolted and attached. Like most modern cars and aircraft, Formula One race cars feature monocoque construction. Monocoque is a French word meaning "single shell," which refers to the process of making the entire body out of a single piece of material.
