Evolutionary Behavioral Sciences (EBS) publishes manuscripts that advance the study of human behavior from an evolutionary perspective, with an emphasis on work that integrates evolutionary theory with other approaches and perspectives from across the behavioral sciences, including the range of subdisciplines within psychology as well as the social sciences (e.g., sociology, political science, criminology) and humanities (e.g., history, literature studies).

Evolutionary Behavioral Sciences

The Journal of Evolutionary Biology is a bimonthly, peer-reviewed, international journal. We prioritise papers that address the evolutionary process, from a broad perspective. We cover both micro- and macro-evolution of all types of organisms. The aim of the Journal is to integrate perspectives across molecular and microbial evolution, behaviour, genetics, ecology, life histories, development, palaeontology, systematics and morphology.

Journal of Evolutionary Biology - Wiley Online Library

Evolutionary Behavioral Sciences is the official journal of the NorthEastern Evolutionary Psychology Society (NEEPS). The journal supports the society's mission by publishing articles that explore the role of evolved mechanisms in real-world phenomena, the consequences of evolved behavior for the patterns and structure of society, and the interplay between evolved psychological mechanisms and cultural influences in driving behavior.

Journal of Social, Evolutionary, and Cultural Psychology

Evolutionary psychology is a theoretical approach in the social and natural sciences that examines psychological structure from a modern evolutionary perspective. It seeks to identify which human psychological traits are evolved adaptations - that is, the functional products of natural selection or sexual selection in human evolution. Adaptationist thinking about physiological mechanisms ...
