switched telephone network.

Universal Digital Alarm Communicator/Transmitter UDACT-F

Notifiers old UDACT had a keypad mounted to the front of the board and required programming by hand which could be pretty taxing on large systems when using the Contact ID format. Now finally, all of this has been corrected as Notifier has announced and started to ship a new version of the UDACT now known as the UDACT-2. The new UDACT-2 has no more front programmable keypad as all of the programming is now done through Notifier's programming software, Verifire Tools.
