Simple Stock Trading Formulas (Book) | Douglas County ...

For each completed trade, you need to determine the number in dollars that you gained or lost. You need to include commissions in the calculation. For example, you bought a stock option for \$250 and sold it a few days later for \$500. Your broker charged a \$7 commission for each end of the trade, so your profit was \$250 minus \$14, or \$234.
