The Bible Unearthed - Wikipedia

This book place the biblical narrative in its historical context according to archaeological discovery. The book debunks the historicity of much of the biblical narrative, especially where it does not align with physical evidence, and places the writing of the core of the bible towards the end of the 7th century BCE.

The Bible Unearthed: Archaeology's New Vision of Ancient ...

Together, their stated purpose is to present how the new discoveries of the discipline of archaeology have overturned long held assumptions about the essential reliability of the Old Testament as a historical record.
