Writing, form of human communication by means of a set of visible marks that are related, by convention, to some particular structural level of language. Languages are systems of symbols, and writing is a system for symbolizing these symbols. Learn more about writing in this article.

## **Writing - Encyclopedia Britannica | Britannica**

The phoenetic writing systems of the Greeks ("phoenetic" from the Greek phonein - "to speak clearly"), and later the Romans, came from Phoenicia. The Phoenician writing system, though quite different from that of Mesopotamia, still owes its development to the Sumerians and their advances in the written word. Independently of the Near East or Europe, writing was developed in Mesoamerica by the ...

## **Encyclopedia - Wikipedia**

Writing is a medium of human communication that involves the representation of a language with symbols. Writing systems are not themselves human languages (with the debatable exception of computer languages); they are means of rendering a language into a form that can be reconstructed by other humans separated by time and/or space. While not all languages utilize a writing system, those with ...
